

## PROPOSAL SUMMARY DECEMBER 2016

LOGAN HOSPITAL EXPANSION	
LOCATION	SEQ
RESPONSIBLE AGENCY	Queensland Health
PROPOSAL STAGE OF DEVELOPMENT	Preliminary Business Case complete
PLANNED STAGE END DATE	Not Applicable
NEED	The scope and scale of Logan Hospital's services and physical infrastructure are insufficient to meet the demand of the Logan community. Factors driving this demand include a growing and ageing population and disproportionate demand for emergency services. Capacity constraints result in extended emergency department and outpatient waiting times, emergency department overcrowding and delays in provision of care.
PROPOSAL	<p>The objectives of the proposal are to:</p> <ul style="list-style-type: none"><li>▪ relieve pressure on current infrastructure by increasing onsite capacity</li><li>▪ help address long wait times, improve operational and clinical performance, and achieve treatment targets</li><li>▪ deliver healthcare closer to home and improve patient outcomes.</li></ul> <p>Several options have been considered, including expansion of existing facilities or construction of new facilities.</p>
NEXT STEPS	Commence Detailed Business Case      Building Queensland to lead Detailed Business Case
